We understand that a child may not have completely mastered each of these skills at the time of enrollment - since enrollment happens usually 6 months prior to the start of school. However, in order to enroll your child in our program, you must agree that you will work diligently with them to ensure that they do master ALL of these skills before they may begin school. If they begin school and we notice that they are unable to do any of these skills, we will ask that you keep them home until they are able. Please also note that enrolling your child and signing our Family Agreement is a contractual obligation to pay the full year's tuition from the date of signature to the conclusion of the school year.

By signing below, I acknowledge that my child can already or will be able to do all the above listed tasks by the beginning of school. I acknowledge that, if that is not the case and I enroll my child anyway, I will still pay the tuition for the year.

This form is an acknowledgement of required skills, but is not a contract indicating my child's enrollment.
